ADJ PANHARD ROD

APR007 - Front 780-865mm

APR008 - Rear 1040-1125mm

80 Series Landcruiser

Available Now!

An Adjustable Panhard Rod is essential on all raised four wheel drives to correct rear axle alignment. When the vehicle is raised the Genuine standard fixed panhard rod pulls the axle to one side, causing a variety of problems such as contact between tyre and body, and handling issues. Fit an Adjustable Panhard Rod from Roadsafe PAJA to rectify these issues.

Additional 4WD Panhard Rods...

- Pajero (Rear) - APR003
- Patrol GU II (Front) - APR028
- Patrol GU II (Rear) - APR029
- Hilux 130 (Rear) - APR019
