

Patrol Trailing Arms

No! This Bend is not meant to be there!

Roadsafe Patrol Rear Lower Trailing Arms are built tough, so when you bump them up against rocks and tough terrain, they won't bend as much as the standard arms. You've got to really give the Roadsafe ones a decent smack to get the 5mm wall thickness to buckle in. We're not claiming Roadsafe arms are infallible, there will always be a bloke who wants to hang his truck up by the Rear Lower Arms with bending consequences, but for your average 4wd'er one set of Roadsafe arms should see you through the life of your truck!
